Autism Parents’ Handbook
Perth & WA - 2018 Edition

Your essential guide to services and support in Western Australia
Disclaimers

Every effort has been made to ensure that the information contained in this handbook is correct and up-to-date at the time of publishing (March 2018), however, as services change regularly this cannot be guaranteed. This handbook does not contain all of the services available in Western Australia for children on the autism spectrum or endorse any of the services listed. Please contact each organisation listed for more information to identify if their services meet your needs. This handbook is free for families, health and education professionals and may be shared or reproduced. My sincere apologies for any errors or omissions.
Foreword

It is a pleasure to write the Foreword for this little gem of a handbook.

We yearn to be parents and to raise happy and healthy children. When we have a child with ill-health or disability, we go through a range of grieving reactions. Sometimes those reactions are severe or prolonged and are cyclical. We may feel denial, sadness, anger and loneliness. Because children on the autism spectrum have difficulties with communication, socialisation and behaviour, families often feel especially stigmatised and crave for more understanding from society. Of course, there will be happy and joyous times and there will be unending love for our child. Families who are active in the community and are knowledgeable about resources are likely to experience less frustration and isolation.

Heidi Brandis is to be congratulated for succinctly setting out resources for parents in Western Australia, who have a child on the autism spectrum. Compiled resources presented in this handbook help families to feel informed and empowered, and possibly surprised at the number of resources. This Autism Parents Handbook will be a very helpful companion to families in the early days around the diagnostic time, as well as being a valuable resource at other periods in the journey.

From the Author

To all the wonderful parents and carers of children on the autism spectrum in Western Australia. Welcome to the 2018 edition of the WA Autism Parents’ Handbook!

The months before and after your child is diagnosed can be so stressful and very overwhelming. It took me many years to get help and support before and after our daughter was diagnosed. Everyone I called seemed to refer me to another agency and I went round and round in circles, not really knowing or understanding exactly what services we needed or how to access them. I spent countless hours searching for help while trying to manage ongoing day to day autism challenges, running my own business and developing anxiety and depression along the way. This had a huge impact on our family’s relationships, mental and physical health, friendships and social life, and my career.

If I had had a handbook like this one, it could have saved us so much time, energy, enormous stress, confusion and insomnia. Our daughter could have been so much better supported had we been better informed, and her childhood so much better as a result. That’s what inspired me to gather resources along our journey, thinking that one day I would put them all together to create a “survival guide” for other parents - and here it is!

I hope this handbook saves you from going through the same exhausting process that we did - and that somewhere in these pages you will find all the help and support, people, funding and services that your family needs to endure this time. Your child or children need your time and your energy: I wish that in some way this handbook gives you more of both to continue your journey and be hopeful about your son’s or daughter’s future.

Warm wishes

Heidi Brandis

March 2018

autismparentshandbook@gmail.com
Dedication
For our beautiful and talented Mia. Without you, this handbook wouldn’t exist. Because of you, so many parent’s and children’s lives will be better.

And for Daniel, our funny and loving boy. The best little brother ever.

Memorium
In memory of the late Iain Croft, RIP. An extraordinary man whose children should be proud of the enormous contributions made by their dad to the autism community.

Acknowledgements
This Handbook was made possible with generous support and assistance from the following organisations and people:

Developmental Disability WA
whose Grant allowed us to create this Handbook - special thank you to Mary Butterworth for her endless enthusiasm.

Our sponsors DDWA, Autism Association of WA, Activ Foundation, Kalparrin, Autism West, Altius Group, Darrin Brandis and Derick Borean
Your funding support for the design and printing of this Handbook enabled 15,000 families and health/education professionals to access the resources and support so necessary for autism families. An enormous thank you to you all!

Dr John Wray, Senior Developmental Paediatrician
for your kindness and guidance on our family’s autism journey, and for writing the lovely Foreword to this Handbook.

Dr Fred Ng, Child and Adolescent Psychiatrist
for your guidance, wisdom and support.

My parents Andre and Isabel Sweidan, my in-laws Ros and Evan Brandis and our incredible family for their endless love, support and generosity.

And most importantly, the most generous husband in the world, Darrin Brandis, without whose love, encouragement and support this Handbook would not exist.

What’s in a name?
The autism spectrum varies considerably, from those who are non-verbal and may have intellectual delay, to those who are highly social and more rarely those with savant skills, and many in between.

The terms “high functioning”, “low functioning”, “Asperger’s syndrome”, “pervasive developmental delay” and others are now all grouped under one category termed “Autism Spectrum Disorder” in the Diagnostic and Statistical Manual (DSM 5) used when diagnosing autism in Australia. One unusual or atypical presentation of autism is known as Pathological (or extreme) Demand Avoidance which was first identified in the United Kingdom in the 1980’s. The key features of PDA include resistance to, and avoidance of, the ordinary demands of everyday life.

Those with PDA often have better social skills (good eye contact, very articulate) than others on the spectrum. PDA is best understood as an anxiety-driven need to be in control. Frequently show surface sociability and labile mood (“Jekyll and Hyde” type personality). Typical management strategies used with children on the spectrum (timers, routines, visuals) are counter-productive and worsen behaviour and anxiety.

For more information and effective strategies please see www.pdasociety.org.uk and www.thepdaresource.com

Autism Diagnosis

Autism is a complex neurobiological condition with difficulties in communication, social ability and repetitive behaviours or restricted interests. Symptoms range from mild to severe and approximately one per cent of the population has autism. People with autism generally have difficulty relating to others and may be more (or less) sensitive to sights, sounds, touch, smells and tastes than others. No one knows for certain what causes autism. Genetic and environmental factors are being researched, and there is no scientific evidence that vaccines cause autism. There is no “cure” for autism, although there are many treatments and therapies available to assist people with autism to reach their full potential (Professor Andrew Whitehouse, Angela Wright Bennett Professor of Autism Research, Telethon Kids Institute, University of Western Australia).

Who is involved in Autism Assessments?
In Western Australia (WA), a multidisciplinary team is required to carry out an assessment for autism.

For children:
• developmental paediatrician and
• psychologist and
• speech pathologist

For adolescents:
• developmental paediatrician or psychiatrist and
• psychologist
• speech pathologist (only if recommended by a paediatrician or psychiatrist).

Where To Get A Diagnosis?
Autism assessments can be conducted in the WA public health system or privately. Waiting times vary considerably, so it’s worth putting your name down on waiting lists as soon as you can.

1) Private system
The first step is to make an appointment with your GP who will refer your child to a developmental paediatrician. The paediatrician will assess your child and if indicated will refer you to a psychologist and speech pathologist to complete the assessment. The three professionals then communicate their findings with each other to reach a joint decision regarding diagnosis. See www.waadf.org.au for more information.

2) Public system
There are two paths to access autism diagnostic services in the WA public health system:
• Child Development Services and
• Department of Communities, Disability Services
The team currently working with your child (or your GP or Child Health Nurse) will advise which team is best for you to access and your GP will be able to refer you to the most appropriate service.

What Is The Cost Of A Diagnosis?
Diagnostic assessment through the WA public health system is provided at no cost to families. The cost of private assessment will depend on the fees set by individual practitioners. Families who choose private assessment may be able to recover some costs through Medicare rebates, or private health insurers. A Medicare autism assessment and treatment rebates fact sheet is available from Medicare www.medicare.gov.au or Commonwealth Health Department at www.health.gov.au.

What Happens After The Diagnosis?
The assessment team will contact the family to discuss the diagnosis. Recommendations for interventions will be made. Families can contact an Autism Advisor at the Autism Association of WA who will provide information regarding eligibility and available funding for Early Intervention (therapy) and other funding and support services.

[The above information was adapted from AAWA’s fact sheet on Autism Diagnosis in WA, together with information provided by WAADF and Disability Services]
The first thing to do after your child has been diagnosed with autism is:
1) Put the kettle on. Sit down. Take a deep breath;
2) Say to yourself, “It’s going to be all right, everything is going to be okay.”
3) Make yourself a cuppa, grab a snack (preferably chocolate) and read ahead....

First Contacts Following Diagnosis

Autism Association of WA
Tel: (08) 9489 8900
Website: www.autism.org.au
Following diagnosis, or during diagnostic process, families/carers can contact an Autism Advisor at the Autism Association of WA (access is free). Provides services to individuals on the autism spectrum and their families from early childhood through to adult life. Includes Autism Advisor Service, Early Intervention (therapy) and adult therapy services, employment, training, post school options, community living, respite and Intensive Family Support. Please note the Autism Advisor service may be phased out as the NDIS rolls out.

National Disability Insurance Scheme (NDIS)

Department of Social Services
A list of Early Intervention Service Providers available via this link http://bit.ly/WAearlyinterventionlist. It is updated regularly as providers are approved to the Early Intervention panel.

Early Days Online Workshops
Tel: (08) 9489 8900
Online workshops
http://raisingchildren.net.au/articles/early_days_autism_workshops
One day workshops
www.autism.org.au
Workshops for parents and carers of children aged six years or younger who have recently been diagnosed or going through assessment. You can do online workshops in your own time or attend one-day workshops held at the Autism Association of WA.

Positive Partnerships
Website: www.positivepartnerships.com.au
Workshops and online resources for parents and carers of primary school aged children with autism. Part of Commonwealth Helping Children with Autism package.

Autism Services Pathfinder

This is a guide to getting a diagnosis, finding service providers, comparison of therapies, medication and other intervention, education, funding and support.

Find a Therapist/Psychologist
Your GP or Paediatrician can recommend Occupational Therapists, Psychologists and Speech Pathologists in your area. You could also join Kalparrin Families Facebook page to ask for suggestions from other parents.
The National Disability Insurance Scheme (also called the NDIS) is the new way of providing disability support.

The National Disability Insurance Scheme (NDIS) is the new way of providing disability support. The NDIS will provide all Australians under the age of 65 who have a permanent and significant disability with the reasonable and necessary supports they need to enjoy an ordinary life.

The NDIS will help people with disability achieve their goals. This may include greater independence, community involvement, employment and improved wellbeing.

As an insurance scheme, the NDIS takes a lifetime approach, investing in people with disability early to improve their outcomes later in life.

The NDIS also provides people with disability, their family and carers with information and referrals to existing support services in the community.

By 2019, the NDIS will support about 460,000 Australians with disability.

Can I access the NDIS?

To become an NDIS participant a person must:

- Have a permanent disability that significantly affects their ability to take part in everyday activities;
- Be aged less than 65 when they first enter the NDIS;
- Be an Australian citizen or hold a permanent visa or a Protected Special Category visa; and
- Live in Australia where the NDIS is available.

The NDIS is being introduced progressively around Australia from 1 July 2016.

Can I still receive support if I do not meet the access requirements for the NDIS?

A person does not have to be an NDIS participant to receive support from the NDIS.

The NDIS will connect people with disability, their families and carers, including people who are not NDIS participants, to disability and mainstream supports in their community.

To find out more about information, links and referrals to community and mainstream support services visit www.ndis.gov.au or call 1800 800 110.

Funding

State & Commonwealth Government funding is available to support your family, depending on your eligibility. This includes the National Disability Insurance Scheme, Medicare, Centrelink & other sources.

1) NDIS

The National Disability Insurance Scheme (also called the NDIS) is the new way of providing disability support.

As an insurance scheme, the NDIS takes a lifetime approach, investing in people with disability early to improve their outcomes later in life.

The NDIS also provides people with disability, their family and carers with information and referrals to existing support services in the community.

By 2019, the NDIS will support about 460,000 Australians with disability.

Can I access the NDIS?

To become an NDIS participant a person must:

- Have a permanent disability that significantly affects their ability to take part in everyday activities;
- Be aged less than 65 when they first enter the NDIS;
- Be an Australian citizen or hold a permanent visa or a Protected Special Category visa; and
- Live in Australia where the NDIS is available.

The NDIS is being introduced progressively around Australia from 1 July 2016.

Can I still receive support if I do not meet the access requirements for the NDIS?

A person does not have to be an NDIS participant to receive support from the NDIS.

The NDIS will connect people with disability, their families and carers, including people who are not NDIS participants, to disability and mainstream supports in their community.

To find out more about information, links and referrals to community and mainstream support services visit www.ndis.gov.au or call 1800 800 110.

Please refer to the document “My NDIS Pathway” (www.ndis.gov.au/participants Search “planning process”)

Funding (cont’d)

2) Medicare

NOTE: The transition to the NDIS system over 2018-2020 will affect funding for the HCWA program and other Medicare funded services and programs. As such, all services listed below are subject to change.

Helping Children with Autism program (HCWA) Autism Diagnostic Assessment
Medicare rebates are available for assessment, diagnosis and the creation of a treatment and management plan by a consultant paediatrician or a psychiatrist for a child aged under 13 years of age. Under the HCWA program, a child can also be referred by a consultant paediatrician or psychiatrist for the following allied health services: up to four diagnostic / assessment services from psychologists, speech pathologists, occupational therapists to assist the referring practitioner with diagnosis or to contribute to a child’s treatment and management plan. The referrals must be written before the child’s 13th birthday. See Medicare items fact sheet for Helping Children With Autism at www.health.gov.au.

Early Intervention Therapy services (for Children under 7)
Early Intervention funding under the HCWA program is aimed at providing increased access to Early Intervention for children aged up to six years with autism. This may include registered occupational therapy, speech therapy and psychology services. Funding of up to $12,000 (maximum of $6,000 per financial year) can be accessed until the child’s seventh birthday. Your Autism Advisor can assist you in identifying a suitable Early Intervention service provider. See www.dss.gov.au (search Helping Children with Autism) for eligibility and list of therapy service providers, which is updated weekly.

Autism Therapy/Treatment (for Children over 7)
Under the HCWA program, a child can be referred by a consultant paediatrician or psychiatrist for up to 20 treatment services from psychologists, speech pathologists, occupational therapists (for a child under 15 years of age, providing a treatment and management plan is in place before their 13th birthday). These are the total number of services available to each child through the Helping Children with Autism program and are not an annual entitlement. Patients will require a separate referral for each allied health provider and they will also need new referrals for each new course of treatment. See www.mbsonline.gov.au for the Medicare benefits schedule.

For more information, contact Helping Children with Autism Helpline on 1800 778 581.

Better Access to Mental Health (Counselling and Psychology Services)
Medicare rebates are available for up to 10 individual sessions and up to 10 group allied mental health services (psychologists, some social workers and occupational therapists) per calendar year to patients referred by their GP managing the patient under a GP Mental Health Treatment Plan or under a referred psychiatrist assessment and management plan. (This can include social skills programs.) Can get a Better Access Plan for yourself and/or your child as there are no age restrictions.

Chronic Disease Management Plan (formerly called Enhanced Primary Care Plan)
This Plan allows a GP to coordinate health care of patients with chronic medical conditions, including patients with these conditions who require multidisciplinary, team-based care from a GP and at least two other healthcare providers. Up to five sessions a year are partially covered by Medicare rebate and have no age restrictions.

Website: www.health.wa.gov.au and search ‘Chronic Disease Management’.

Once the above two entitlements have been exceeded, you can use private health cover to subsidise private OT, speech and psychology services for therapy.
3) Centrelink

Website: www.humanservices.gov.au

The Payment Finder located on the website can help you locate a range of benefits that you may be eligible for, including Family Tax Benefit, Child Care Benefit, Child Care Rebate, Parent Payment, as well as some or all of the following:

**Carer Allowance**
A fortnightly supplementary payment for carers who provide additional daily care and attention for someone with a disability. Not means-tested.

**Carer Payment**
A fortnightly, assets and means-tested income support payment for people who provide constant care for their child with severe disability and are unable to work as a result.

**Annual Carers Supplement**
If you receive the Carer Allowance or Payment, you may be eligible for annual Carers Supplement of $600 paid around July each year.

**Child Disability Assistance Payment**
If you receive the Carer Allowance or Payment and care for a child under 16 years you may be eligible for annual payment of $1000 paid around July each year.

**Mobility Allowance**
Help for people with a disability aged over 16 years who cannot use public transport and need to access work or study/training.

**Assistance for Isolated Children Scheme (AIC)**
Payment made each term for students who cannot go to an appropriate state school because of geographical isolation, disability or special health needs.

**Health Care Card**
A Health Care Card is automatically issued for your child when you receive the Carer Allowance. It entitles your child to concession rates for prescription medicines and other concessions, such as discounted public transport for some cardholders, bulk billing by selected doctors and higher refunds through the Medicare Safety Net.

**Carer Adjustment Payment**
A one-off payment of up to $10,000 following a catastrophic event when a child under seven years of age is diagnosed with a severe illness, medical condition or major disability. You have two years following diagnosis in which to apply.

**Disability Support Pension**
Financial support for people who have disability that stops them from working, are aged 16 years and over, and unable to work more than 15 hours a week. Check eligibility criteria.

**Pensioner Education Supplement**
A small subsidy payment for secondary and tertiary part-time and full-time students who are already receiving a benefit or payment.

**Inclusion Support Subsidy**
Paid to approved child care services, including out of school hours care and holiday programs, so that they can provide extra care for children with special needs. Your child care service will need to apply through their Inclusion Support Facilitator.

[Artwork by Mia, Instagram: oodles_of_doodles0_0 Tumblr: oodles-of-doodles0-0 Twitter: oodles_of_doodles]
4) Other Funding Sources

**Secondary Assistance Scheme**
Tel: (08) 9264 4516  
Email: student.allowances@education.wa.edu.au  
Web: www.det.wa.edu.au  
Available to parents or independent secondary students who hold eligible concession cards. It comprises an Education Program Allowance which is paid to the school, and a Clothing Allowance that can be paid to the school or the parent. Forms are available at secondary schools.

**Variety WA**  
Website: www.variety.org.au/WA search: ‘Apply for assistance’.  
Provides grants for practical equipment, resources and experiences for children who are disadvantaged or have special needs.

**Community Living and Participation Grant**  
Tel: (08) 9242 5544  
Email: grants@nds.org.au  
Website: www.clpg.org.au  
Community Living & Participation Grants provide up to $10,000 for customised solutions that support people with disability to participate in family and community life.

**WA Grants Directory**  
Website: https://www.dlgc.wa.gov.au/AdviceSupport/Pages/LG-Grants-Directory.aspx  
WA government directory of grants to help communities source financial support including Grants for women.

**Avivo Family Support Program (formerly Perth Home Care Services)**  
Email: hello@avivo.org.au  
Tel: 1300 428 486  
Avivo’s Family Support Program provides funding for a PWD & Carer/Parent (up to 2x/year) for activities to connect with community and improve resilience eg gym membership, RDA, swim lessons, yoga, pilates. Also provides funding for a family for either in-home support or to take child out to access community programs or support on family holidays for up to 12 weeks. This funding is due to be reviewed in June 2018 - contact Avivo for more information.

**KidSport**  
Kidsport enables WA children age 5 - 18 years with a Health Care Card or Pensioner Concession Card to participate in community sport and recreation by offering up to $200/year for club fees.
Concessions

Accessing services and supports can become very expensive. A number of concessions and discounts are available to help ease the financial pressure.

WA Government Social Concessions Portal
Website: www.concessions.wa.gov.au
Reliable up to date information about all social concessions and rebates available through the State Government via a single portal. Discounts include:
• Cost of Living Assistance e.g. power, water, rates
• Boarding Away from Home Allowance - Respite
Email: student.allowances@education.wa.edu.au  Tel: (08) 9264 4516

Companion Card
Tel: 1800 617 337  Email: wa@companioncard.asn.au
Website: www.wa.companioncard.asn.au
For people with a significant disability, who always need a companion to provide attendant care support in order to participate at most community venues and activities. Companion Card applicants must meet eligibility criteria (see website) and Companion Card holders can gain entry to many venues and events at no or reduced cost. Participating venues are available on website.

Qantas Carer Concession Card (Domestic Only)
Tel: 1800 806 769  Email qccc@pwd.org.au
Website: www.pwd.org.au  Search: ‘Qantas carer concession’.
Qantas Carer Concession Card program for people with a disability and high level support needs, who require fulltime assistance of a carer while on a plane. See website for discounts for carer and person requiring care on domestic flights only.
Card costs $49.50 and is valid for 3 years.

Low Income Health Care Card
Website: www.humanservices.gov.au
Search: ‘Low Income Health Care Card’.
Access to cheaper prescription medicines, and various concessions from state and local government and private organisations including health care services.
Education

There are three main options in Western Australia for primary and high school - government school, private school or home schooling.

1) WA GOVERNMENT PUBLIC SCHOOLS - DEPARTMENT OF EDUCATION (DoE)

Early Intervention Units
Contact Principal of Autism Education:
Tel: (08) 9426 7110
DoE runs 11 Early Intervention Units in WA offering intensive behavioral intervention programs for Kindergarten and Pre-Primary children with autism. They are located at Education Support Centres.

Accelerated Learning Centres
DoE centres operate in Heathridge and Beckenham Primary Schools (Kindy/Pre-Primary) providing a two-year intensive intervention based on ABA principles, (12 hours per week).

Primary Schools Specialised Learning Programs
DoE is planning 16 programs by 2020 in local public primary and high schools. In 2018, Gosnells will continue to operate, and new programs will commence at Cooina Primary, Heathridge Primary, Marangaroo Primary, Samson Primary and Southern River College. For more info please contact SSEND at DoE or one of these schools. You do not need to live in these areas for your child to attend, however there are a number of eligibility criteria (including ASD, no ID, significant social/behavioural/emotional issues)

Education Support Centres/Units
DoE runs a number of Education Support Centres and Units, both attached to mainstream schools and independent units. Contact your local DoE District Office to find out if your local schools have an education support service.

Secondary Autism Extension Program
DoE has four high-school Autism Extension Programs for years 8-10, located at Ashdale Secondary Collage, Ocean Reef High School, Souther River College and South Fremantle Senior High School, catering for students with high functioning Autism, incorporating life skills and community access programs in curriculum. New secondary Specialist Learning Programs are planned for 2019-20.

Schools Plus
Website: det.wa.edu.au/schoolsplus/detcms/portal
Deals with funding applications for an education assistant (EA) to work in the classroom with your child. This application is done through your child’s school. The Principal/Deputy at your school will need to submit an application if the teacher requires support to facilitate your child’s education. This can be a lengthy process but well worth it to get necessary support for your child at school. Amount of funding and subsequent EA time depends on the quality of application. This decision can be appealed.

School of Special Educational Needs: Disability (SSEND)
Address: Statewide Services Centre
33 Giles Avenue, Padbury, WA 6025
Tel: (08) 9402 6100
Email: SSEND.Enquiries@education.wa.edu.au
Website: www.det.wa.edu.au/ssen
The Autism Education Service (AES) provides specialist services to networks and school communities for students on the spectrum, whose educational needs and self-regulation skills require specialist support. An Autism Education Service Officer can visit the school, provide resources and support to teacher and school. A visiting teacher will come first and then may request the Autism Team visit.

Artwork by Mia, Instagram: oodles_of_doodles0_0 Tumblr: oodles-of-doodles0-0 Twitter: oodles of doodles
2) PRIVATE AND INDEPENDENT SCHOOLS

Association of Independent Schools (AISWA)
Address: PO Box 1817, Osborne Park, WA 6916
Tel: (08) 9441 1600
Email: ie@ais.wa.edu.au
Website: www.ais.wa.edu.au
AISWA oversees all non-Catholic private and independent schools in WA. AISWA employs an Inclusive Education team to support independent school students with a disability. Limited funding may be available to support your child at school. Parents need to discuss supports for their child at school directly with the school principal.

AISWA School Psychology Service (ASPS)
Provides a specialist psychology-based service to AISWA schools. To request support from the AISWA School Psychology Service, please contact your school Principal.

Catholic Education Office (CEOWA)
Students may receive assistance through a range of options including: Access to learning support teachers; small group or individual instruction, teacher assistant support. A number of Catholic schools have an Education Support Centre where students may receive additional support with specialist staff.
Address: 50 Ruislip Street, Leederville. WA 6007
Tel: (08) 6380 5200
Email: swd@ceo.wa.edu.au
Website: internet.ceo.wa.edu.au Search word ‘Disabilities’.

Catholic Education Office Psychology Team
The Psychology Team provides assistance to schools in relation to psychological and educational needs; centralised and school based training in evidence and best practice based intervention programs; system level school interventions to address educational behavioural or social and emotional needs; crisis management.
3) HOME EDUCATION

Department of Education (DoE)
Website: www.det.wa.edu.au/homeeducation/detcms/portal
Approval to educate children at home is required from the WA Department of Education. For requirements and resources contact your nearest district education office and ask for Home Education Moderator. Contact details on website.

School of Isolated and Distance Education (SIDE)
Tel: (08) 9242 6300 Email: info@side.wa.edu.au Website: www.side.wa.edu.au
The Schools of Isolated and Distance Education is the centre of distance and on-line learning within DoE. The Leederville campus of SIDE provides education for students in years K-12 who, for various reasons, cannot attend classes in a regular school.

Home Based Learning Network
Website: www.hbln.org.au
Home Based Learning Network is a volunteer, non profit organisation dedicated to supporting all Western Australian home based learners. Offer activities, discounts and newsletter.

Southlands Christian College
Tel: (08) 6818 6000 Email: southlands@acc.edu.au Website: southlands.accde.edu.au
Distance education program which can be purchased for home education, either online or as a hardcopy.

Swan Christian College - online learning
Tel: (08) 9374 8300 Email: swanjuniorschool@scea.wa.edu.au or swanseniorschool@scea.wa.edu.au Website: www.swan.wa.edu.au/swan-online
Aims to provide a caring learning environment in which students are educated, encouraged and equipped to be people of passion and integrity.

Home Education Australia
Website: www.hea.edu.au
Aims to encourage and promote the practice of home educating in Australia and to provide members with benefits which would be difficult to obtain by individuals or smaller groups.

Khan Academy
Website: www.khanacademy.org
Free educational videos on huge range of topics.

HBLN - Home Education WA
https://www.facebook.com/hblnpage/

Homeschooling Perth
https://www.facebook.com/groups/homeschoolingperth/

4) TERTIARY EDUCATION

Curtin Specialist Mentoring Program (CSMP):
Contact Dr Jasmine McDonald or Theresa Kidd for more information - autism.mentoring@curtin.edu.au

UWA UniAccess
Make an appointment to see a disability officer by phoning Student Wellbeing on (+61 8) 6488 2423. UniAccess staff are equipped to recommend the best options to enable your participation. Our approach is to provide an individual assessment of your needs and then work with you to plan the approach that will work best. A disability officer can also provide information to prospective students and their families. We also provide information and support to help University staff.

North Metropolitan TAFE
Tel: 9427 1314 Email: Student.Support@nmtafe.wa.edu.au
Disability Support is available across all North Metropolitan TAFE campuses. Please contact us to arrange for Disability Support to meet at your campus. It is advisable for students to contact Disability Support early to ensure that the most appropriate support can be put in place in a timely manner.

South Metro TAFE
Student Support Services
Student Support Services works across all campuses to coordinate and implement support for students with disabilities whether temporary or permanent. People with disabilities have a right to access and participate in education and training on the same basis as those without disabilities. We offer support and arrange reasonable adjustments. Tel: 1800 001 001 Email: student.access@smtafe.wa.edu.au
Carers’ Agencies
As your child’s full-time carer, your ongoing mental and physical health is crucial to you and your family. The following agencies can support you in your invaluable caring role.

facebook.com/groups/kalparrinfamilies
If you are a Kalparrin member, you can join Kalparrin families, WA’s largest online peer support group for families caring for children with disability and additional needs.

24-Hour Autism Hotline - 1300 222 777
(Staffed by volunteer autism parents)
“While siblings face lots of challenges, if they are supported adequately, then there are lots of positives they will also gain from having a sibling with special needs. They can become more compassionate, more tolerant, more responsible and tend to have stronger family relationships. Siblings need information about the disability, to feel listened to and understood, able to express a range of feelings, to feel special themselves, to feel competent and valued, not have too much responsibility, strategies to deal with difficult situations, contact with siblings in similar situations, social support, help with independence. Most children will cope better with stress if they feel listened to, understood and supported by caring adults. The grief you have experienced will also be felt by them, to a different degree. Isolation is one of the biggest issues faced by siblings of children with special needs. It can be very helpful to have contact with others who have similar issues.”

(Kate Strohm, Siblings Australia)

**Carers WA**
Tel: 1300 CARERS (1300 227 377)
Email: youngcarers@carerswa.asn.au

Regional Callers: 1800 636 427
Email: autismwa@autism.org.au
Website: www.autism.org.au
Following diagnosis, or during diagnostic process, families/carers can contact an Autism Advisor at the Autism Association of WA (access is free). Provides services to individuals on the autism spectrum and their families from early childhood through to adult life. Includes Autism Advisor Service, Early Intervention (therapy) and adult therapy services, employment, training, post school options, community living, respite and Intensive Family Support. Please note the Autism Advisor service may be phased out as the NDIS rolls out.

Activ
Tel: (08) 9387 0555
Website: www.activ.asn.au
Activ services extend throughout the Perth metropolitan area and through various centres of regional WA offering: individualised services, community based activities, supported living options and supported employment.

Developmental Disability WA (DDWA)
Tel: (08) 9420 7203
Address: City West Lotteries House, 2 Delhi St, West Perth WA 6005.
Website: www.ddwa.org.au
Developmental Disability WA (DDWA) is a not-for-profit organisation, which has been a leader in the disability sector for almost 30 years. As the peak advocacy organisation in WA for people with intellectual and other developmental disability and their families, DDWA works in three key ways:
1. Advocacy – supporting people with developmental disabilities and their families to have a strong voice.
2. Policy – influencing government and other decision makers.
3. Community – partnering with others to develop more connected and inclusive communities.
Contact DDWA to receive regular e-updates, newsletters, and find out about regular workshops, seminars and other events for individuals, families, and service providers in regional areas throughout WA.
